Call for Nominations - 2017 Michael J. Welch Award

The Radiopharmaceutical Sciences Council (RPSC) is accepting nominations for the 2017 Michael J. Welch Award. The Welch Award was created as a means of recognizing individuals who have made an outstanding contribution to the field of radiopharmaceutical sciences, have been involved in mentoring students, postdoctoral fellows and junior faculty, and have been involved in community service to the field of radiopharmaceutical chemistry and molecular imaging. Although all individuals are eligible for this award, nominations will only be accepted from RPSC members. It is our intent to recognize individuals who have not received higher awards from the SNMMI for their scientific contributions such as the Aebersold or de Hevesy Awards. Winners of the Berson-Yalow Award are eligible for the Welch Award. The nomination process consists of:

1. A letter written on behalf of the nominee stating the individual's qualifications (submitted by RPSC member)
2. The Curriculum vitae of the nominee
3. At least 4 letters of reference (do not have to be from a member of the RPSC)

The nomination package should be sent to Ana Hilton of the SNMMI at ahilton@snmmi.org by October 5, 2016.

The winner of the Welch Award will give a one-hour presentation addressing the historical perspective of their work and the impact on the field. The presentation will take place during a continuing education (CE) session at the SNMMI Annual Meeting, June 10-14, 2017 in Denver, Colorado. The Welch Award carries with it an honorarium of $1,000, which is sponsored by the Michael J. Welch Foundation.
