1. Purpose and Roll Call

Quorum was not established

2. Updates

a. Annual Meeting

The time for the BIO meeting in June has not been finalized. Members of the group will complete the Doodle Poll for a BIO meeting at the SNMMI Annual meeting: [BIO Working Group Meeting in San Diego](#). We will secure a conference phone so this poll also applies to those that can join us via phone.

b. ASNR

J. Dubroff will confirm the need for hotel rooms at ASNR for Dr. Nasrallah. S. Hedrick will send an email to the speakers from ASNR notifying them of the travel reimbursement policy

3. Roadshows

The timing for the UCSF/Stanford roadshow has been delayed due to scheduling issues with the speakers. It is now scheduled for the beginning of July; delaying it until August/September would have interfered with the planning of the WashU roadshow. S. Hedrick is confident that getting the first round of marketing materials out will be timely and sufficient for the July date. S. Hedrick will move ahead with the UCSF event at the beginning of July. S. Hedrick will share the questions to use for the enduring recordings from UPENN

4. IDEAS

It was stated that knowing if any geriatric psychiatrists were signed up for the IDEAS study would be helpful for the APA presentations. S. Hedrick will request information from the IDEAS Communications Committee about the percentage of psychiatrists in the approval process, or approved for the study, along with an update on the recruitment status overall

5. Adjournment

The call adjourned at 3:28 PM.

Next meeting is scheduled for June, 2016.
