Committee Charges:

1. Sustain JNMT’s high quality content and support the activities of the JNMT editor for continuous journal development.
2. Support Uptake’s Editorial Board and the continuous high quality of the section’s newsletter.
3. Preserve the section’s active and proactive book program.
4. Ensure the committee’s goals and objectives continuously support the overall TS strategic plan.

Progress of Charge/Objectives/Goals to Date:

JNMT

- **JNMT statistics:** JNMT is in good health. In CY2013, 101 manuscripts were submitted, an increase of 42% over last year. Of those, 74 (74%) were accepted. Turnaround was down significantly to just over 5 months from submission to print and 3.4 months from submission to online publication. Page count was 368.
- **Subscriptions:** Subscriptions for FY2014 are at 88% of budget as of 5/6.
- **Revenue:** Subscriptions revenue is at 78% of budget as of 5/6. Advertising is at 86% of budget.

Uptake

- **Uptake** is doing well on the editorial side; however, advertising is not projected to make budget. Only one issue has been sold thus far.

Opt outs

- Opt-outs for JNMT for 2014 were 2,569 as of 5/7, with 3,288 for Uptake. Both are on target.

Books

- Book sales are looking excellent as of 5/7. Technologist book sales exceeded target in the first and second quarters and are already at 70% of annual budget.
- The new **Protocol book** has been published and is available in print at this meeting. The ebook will be available near the time of the meeting in the Amazon and Apple stores.
- The **NCT Study Guide** revision is in production and should release this year.
- The **Nuclear Medicine Physics Primer** (Kai Lee) is in production and should release in June or July.
- Three additional books are in development:
  - **SPECT/CT: A Primer** (Steve Wozniak, Brian Kerr): this book is in development.
  - A **Brain Imaging Primer** (author group led now by Liz Hackett) is in contract negotiation.
  - An **Instrumentation primer** (Frances Keech) is in development.
- In addition, a series of small, single-topic books (“**mini-books**”) is just beginning development by a task force led by Mary Beth Farrell.
