2006 HCPCS Level II Codes

For Physician Office & Independent Diagnostic Testing Facilities Radiopharmaceuticals & Nuclear Medicine Related Drugs Effective January 1, 2006

[CMS - Alpha-Numeric HCPCS CY 2006](#)

[CMS Transmittal 738 CR 4053 November 1, 2005](#)

[CMS Web Site Drugs](#)

Indicator	Description	Symbol
E	Not paid under RBRVS	New Code ●
X	Not paid under RBRVS	Revised Code ▲
<p>The Centers for Medicare & Medicaid Services (CMS) introduced a new method to pay physicians for drugs and biologicals in 2005 and this continues in 2006. This will be according to a drug's average sales price (ASP) plus 6% or for some new drugs at wholesale acquisition cost (WAC) plus 6% or established drugs at WAC . Additionally, CMS clarified in Transmittal 738 CR4053 that Radiopharmaceuticals are not subject to ASP. Contractors will determine radiopharmaceutical payment allowance limits based on the methodology in place as of November 2003 which would allow invoice or AWP based pricing.</p> <p>To download the latest list of drugs and their ASP+6% prices, see the CMS Quarterly Drug File URL above. From there, scroll until you see the "ASP Pricing File" and click on this file. CMS doesn't classify drugs as physician services and they have no relative values. But CMS pays for drugs at a rate of Average Sales Price (ASP) plus 6%.</p>		<p>Cross Reference Cr■Ref</p> <p><i>NOTE: Cross Reference Codes in this file may not be direct, one to one, cross references. We developed this list to assist SNM members in the conversion from many of the current RP HCPCS level II codes to the 2006 code. Please check the descriptions carefully in the 2006 code and be sure you have made adjustments in your pricing consistent with the descriptions of the new and revised codes effective 2006.</i></p>
