Nuclear Oncology Council (NOC) has continued on its goal to provide a forum for those members of the SNMMI with an interest in nuclear oncology, both therapeutic and diagnostic aspects. The NOC provides an informational resource to support those involved in nuclear oncology and supports the development of diagnostic and therapeutic clinical trials. The NOC also supports the educational objectives of the society with respect to nuclear oncology by organizing and participating in educational activities, keeping alive the interests of practitioners of nuclear oncology and that of other members of the SNMMI. In this respect we uphold the overall goals of the SNMMI in promoting molecular imaging as well as radiopharmaceutical therapy.

**Officers**
President: Neeta Pandit-Taskar, MD  
Vice President: Suresh Srivastava, PhD  
Vice President-Elect: Daniel Pryma, MD  
Secretary/Treasurer: Norman LaFrance, MD, ME, FACP, FACNP  
Immediate Past President: Gregory A. Wiseman MD

**Board Members**
Simin Dadparvar, MD, FACNM  
Daniel Lee, MD  
Rathan Subramaniam, MD, PhD, MPH  
Douglas Van Nostrand, MD  
Franklin Wong, MD, PhD, JD, FACNM  

Intern: Hua Yang, MD, FACNM

The NOC organized several outstanding CME sessions during several meetings of the SNMMI. These sessions were delivered by leaders internationally recognized in their respective fields. We contributed to the development of educational workshops in numerous ways, including: assisting in developing programs, reviewing abstracts, providing speakers and moderators, and providing travel fellowships for 3 young translational researchers.

**NOC 2013-2015 Internship Program**
SNMMI Councils and Center of Excellence Internships is a new program geared to identify and train future leaders of SNMMI in the structure, governance and operations of the organization; to prepare individuals for progressive levels of responsibility; to ensure
effective leadership that advances the mission and goals of the organization. The intern is a young professional (physician, technologist or scientist) in training or in practice within 10 years of graduation. The council selected, Hua Carolyn Yang, MD as the new intern, her term began in June 2013.

**Past Education Activities**
The NOC organized three CE sessions for the 2013 SNMMI Annual Meeting in Vancouver, BC, Canada.
- Management of Thyroid Malignancy
- Using PET in Radiation Therapy Planning
- Sentinel Lymph Node Detection in Oncology Surgery

The council also organized one Categorical titled, Update on Tumor Imaging and Therapy.

**Looking Forward**
The NOC has organized two CE sessions at the 2014 SNMMI Mid-Winter Meeting in Palm Springs, CA.
These include:
2. Prostate cancer: Treatment of bone metastasis with Ra-223 dichloride and Current Status and Emerging Novel Techniques for imaging prostate cancer. This session has been co-organized with the YPC.

The NOC will be participating in the CE sessions at the annual meetings. NOC is has also organizing five CE sessions for the 2014 SNMMI Annual Meeting in St. Louis, MO.

1. Molecular imaging of Breast cancer (including BSGI and PEM)
2. Alpha therapy with Ra-223 dichloride for bone metastasis
3. PET Imaging of Hypoxia and in radiation treatment
4. Liver directed therapy with Y-90 microspheres
5. Theranostics (co-sponsored by CMIIT)
